

SOLUTION OVERVIEW

AeroScout[®] Links

Cloud-based IoT platform for monitoring the environment of care

Solution Benefits

- **Simple, affordable system** for pharmacy, lab, clinic and hospital administrators
- **Easily monitor and be alerted** to patient safety-related environmental trends in real-time
- **Actionable information** to meet regulatory compliance, prevent product loss, and help improve staff efficiency and satisfaction

Worry-free Data Collection

Regular status updates and real-time alerts on environment data. Works during power outages and network disconnections. On-demand reports. NIST certification available.

Discover a New Level of Productivity

Enhanced efficiency when you're on premises. Peace of mind when you're not.

Simpler Deployment & Administration

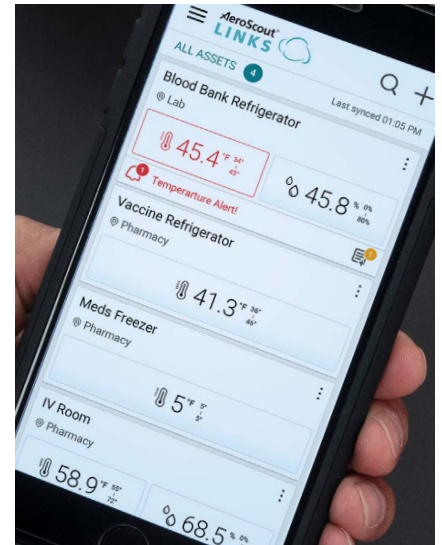

Set up takes minutes. No servers. Minimal IT resources required. Easily scale to monitor additional areas.

Lower Cost of Ownership

No third party components to purchase. Simple, affordable subscription plan.

Secure & Robust Infrastructure

Best-in-class cloud services ensure maximum data security. Automatic backup to make sure data is always available.

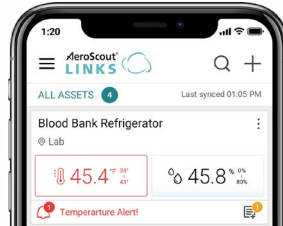

Environmental Monitoring Made Simple

EVERYTHING YOU NEED TO MONITOR YOUR ENVIRONMENT IN REAL-TIME

IoT Sensors

Field-proven, robust and reliable

Mobile App

Simple design, easy to use

Cloud

Always on, at lower cost

Areas of Use

Pharmacies and Labs

Meet stringent requirements for refrigerators storing critical pharmaceuticals such as drugs and vaccines or lab samples sensitive to temperature changes.

Outpatient Services

Meet strict, complex regulations for controlling temperature, humidity and other conditions in ambulatory surgery centers, urgent care, dialysis centers, skilled nursing centers, medical groups and clinics.

Hospitals

Needed for compliance and cost controls. Not just labs and pharmacies, but also in surgery areas, patient floors, and food service. Monitor ambient temperature and humidity conditions in IT and operating rooms.
